

Publication Workshop

Hello

We are going to begin to make a publication of either 8 or 16 pages out of an A3 piece of paper.

You should prepare a series of images or text that create a narrative throughout your book. They should be to scale and can be sketches, actual drawings, collages or printouts

8 page books will be made up of 8 A5 pages
16 page books will be made up of 16 A6 pages

Your publication can include a title page, a verso page, a contents page, or a colophon but the page count should not include the cover.

The cover will be attached separately.

Think of a title for your publication.

What is a title page?

The page at the beginning of a book with the title on

What is verso page?

The page behind (on the reverse) of the title page often with information about the book. Sometimes the verso page is left blank

What is the contents page?

The page listing the contents and page numbers of what is in the book

What is a colophon page?

A page usually at the back of the book with information about who has been involved in the book production

Paper Sizes

| | |
|----|--------------|
| A3 | 420 x 297 mm |
| A4 | 297 x 210 mm |
| A5 | 210 x 148 mm |
| A6 | 148 x 105 mm |
